### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Derek P. Martin on 12/08/2006.

The application has been amended as follows:

In claim 9, line 17, in the body portion has been inserted after "cylindrical groove".

In claim 14, line 3, [[axial cylindrical hole]] has been replaced by body portion.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or suggest the combination that would teach at least the shear member comprising an annular ring portion of the nose piece that is outside the axial cylindrical hole, the shear ring sheared off when the nose piece contacts a target, as recited in independent claims 1, 22 and 23, in combination with the other limitations of these claims. Independent claims 9 and 14 are allowable at least because of the limitation claiming a cylindrical groove in the body portion near the bottom of the axial hole, the first and second tab portions of the first and second knife members extend into the cylindrical groove when the first and second knife members are in the deployed

position. Frick (US 1,318,858), the primary reference applied against the claims in the office action mailed 06/26/2006, does not disclose either the cylindrical shear ring of the nose piece or the cylindrical groove in the body portion near the bottom of the axial hole in the body portion. Folkins (US 3,769,911) cannot be properly used to modify Frick because there is no proper motivation contained in either Folkins or Frick to make the combination. In any event, replacing Frick's shear pin 25 with Folkin's shear ring 8 would not result in an operative version of the applicants' claimed projectile. This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

3. Mizek (US 6,174,252 B1) is cited on the attached PTO 892 because it was applied against dependent claim 11 in the last action but was not at that time listed on an 892 form.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James S. Bergin whose telephone number is 571-272-6872. The examiner can normally be reached on Monday - Wednesday and Friday, 8.30 - 5.30.
